17) Click "Done"

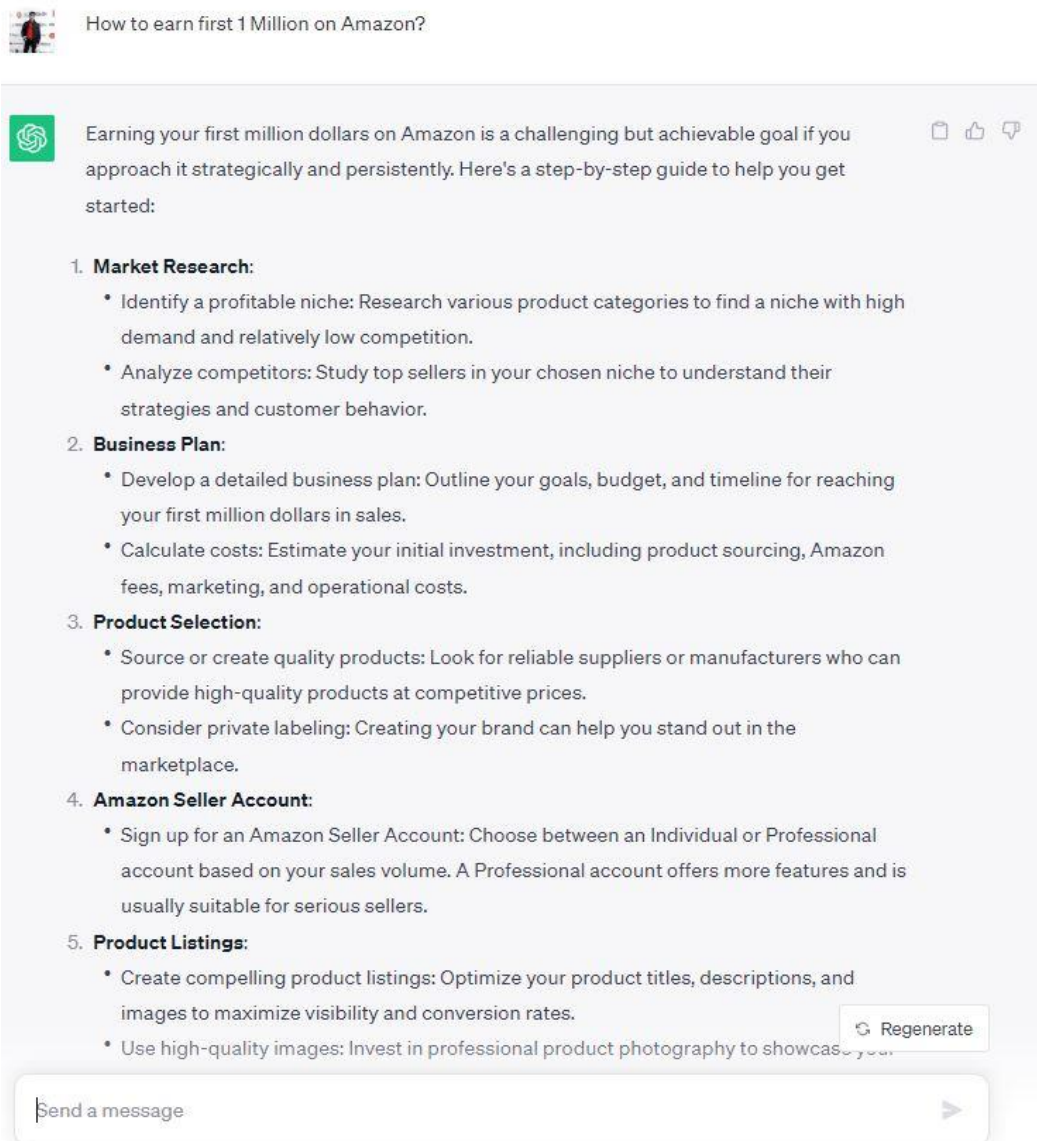

18) Click this field and start typing in your first prompt.

19) I started with a prompt asking ChatGPT to explain itself. I typed "How to earn first 1 Million on Amazon. [[enter]]"

20) ChatGPT then starts responding to your prompt.

How to earn first 1 Million on Amazon?

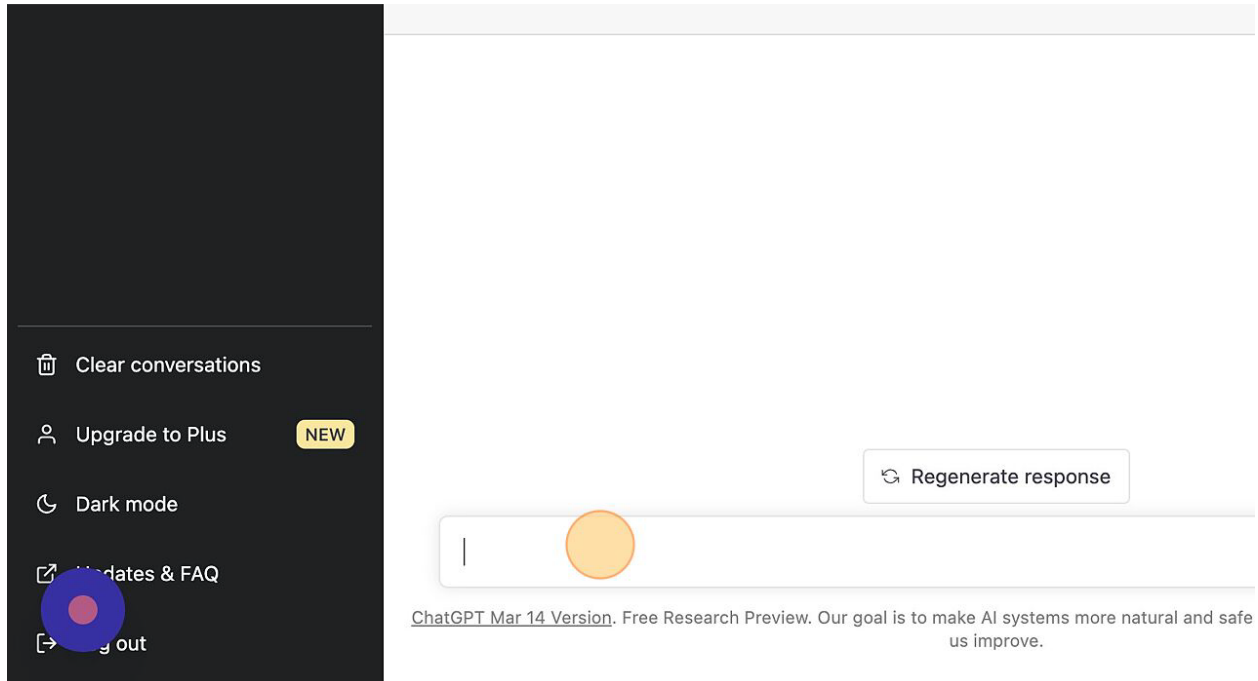

Earning your first million dollars on Amazon is a challenging but achievable goal if you approach it strategically and persistently. Here's a step-by-step guide to help you get started:

- 1. Market Research:**
 - Identify a profitable niche: Research various product categories to find a niche with high demand and relatively low competition.
 - Analyze competitors: Study top sellers in your chosen niche to understand their strategies and customer behavior.
- 2. Business Plan:**
 - Develop a detailed business plan: Outline your goals, budget, and timeline for reaching your first million dollars in sales.
 - Calculate costs: Estimate your initial investment, including product sourcing, Amazon fees, marketing, and operational costs.
- 3. Product Selection:**
 - Source or create quality products: Look for reliable suppliers or manufacturers who can provide high-quality products at competitive prices.
 - Consider private labeling: Creating your brand can help you stand out in the marketplace.
- 4. Amazon Seller Account:**
 - Sign up for an Amazon Seller Account: Choose between an Individual or Professional account based on your sales volume. A Professional account offers more features and is usually suitable for serious sellers.
- 5. Product Listings:**
 - Create compelling product listings: Optimize your product titles, descriptions, and images to maximize visibility and conversion rates.
 - Use high-quality images: Invest in professional product photography to showcase your products.
