Achievements/Tasks

- I was working as an intern so followings were my tasks :-
- Completing all the assignments and all the UdeMy courses provided by the deadlines.
- Completing all the Hands-on and projects work to meet the milestones of the roadmap of QA Domains.
- Attending meetings and discussing the progress of the work with the team members and managers.
- Creating test cases, test scenario, bug report and test execution report as per the assignment provided in the Hands-on and uploading it on Cognizant 1C Portal.
- Applying all the testing methodologies and creating documents in test management tools- Jira, Zephyr and also in MS Excel.
- Using the testing techniques and web-automation tools for implementing the automation concepts.

ORGANIZATIONS

Bihar Institute of Folklore (07/2019 - 07/2019)

I was working on my community development projects as a volunteer where I was working with NGOs and providing lessons on music and its importance to school children in the rural areas schools.

PERSONAL PROJECTS

CURA HEALTHCARE SERVICES (10/2023 - 10/2023)

- Cura Healthcare is an online health service providing platform in which I had done functional testing manually where I had created all the test scenarios, test cases, test execution report and bug reports. I had worked in Ms Excel as well as in Jira for creating test cases and also used Zephyr for creating awesome test reports.

OPEN CART- An Ecommerce website (09/2023 - 09/2023)

- Open cart is an ecommerce website and in this project I had done functional testing manually and created all the test scenarios, test cases, test execution report and bug report in MS excel and then I used Jira software for writing test cases and Zephyr for creating an awesome test reports.

Automation Testing of Cognizant 1C Portal (05/2023 - 06/2023)

- While I was in Cognizant so there was an automation project in which I was working in a team of 6 people and we have to automate the 1C portal of Cognizant and creating testcases.

CERTIFICATES
