Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Software Engineer post .With a Bachelor of Technology in Computer Science from Uttaranchal University Dehradun and hands-on experience in both software development and cloud solutions, I am excited about the opportunity to bring my skills and passion to your esteemed team.

During my recent role as a Trainee Consultant at Stepsn Cloud Dehradun.I assisted in implementing and customizing Microsoft Dynamics 365 solutions and gained valuable experience with various Microsoft 365 services. This role honed my problem-solving abilities and allowed me to contribute to best practices documentation, further refining my technical and collaborative skills.

In my academic projects, I have demonstrated my proficiency in a range of technologies:

- **Full Stack Web App**: Developed a CRUD web application using Spring Boot and React, leveraging REST APIs for seamless interaction between front-end and back-end.
- **Real Chat**: Created a real-time chat application with Node.js and WebSocket.io, showcasing my ability to implement interactive and dynamic web functionalities.
- **MovieLand**: Designed a movie information website with React.js and integrated the TMDB API to provide users with comprehensive movie details and search capabilities.

Thank you for considering my application. I am eager to discuss how my background and skills align with the needs of your team and am available at your convenience for an interview.

Sincerely,
Ansh Thakur
