HOW THIS BOOK CAN WORK MIRACLES IN YOUR LIFE?

Miracles in Your Life

I have seen miracles happen to men and women from all walks of life all over the world. Miracles will happen to you too when you begin using the magical power of your true potential. This book is designed to teach you How to Navigate your life through Numerology?

Do you want to know the answers for...?

Does numerology actually work?

Is numerology a superstition?

Is numerology a myth?

Do we really need to believe in numerology?

You may have many similar questions like this. And if you believe in numerology, there may be many people making fun of you. And if you do not believe it, you can find many people saying, "Why don't you believe in numerology?"

Here, you will understand the numbers and dimensions of your date of birth.

What Role Does Numerology Play in Your Life?

You have been surrounded by **numbers** since the day you were **Born**. Now use them to unlock your **Destiny**.

- Wherever you go in your life, the numbers always move on with you.
- When you are born, on the very first day of your life, you get your date of birth. Which is made up of numbers.
- When you get admitted to school, you get your roll number.
- When you get your results, you get a percentage of numbers.
- When you get a job, you get a salary and EMP-ID number.
- When you buy any vehicle, it has a number plate.
- When you travel, you get a ticket and seat number
- When you check into a hotel, you get a room number.
- When you want to call a person, you have to dial numbers.
- When you get married, there is also a date attached to it.
- **If there is life, there are numbers. You cannot get rid of numbers.**

In Numerology, we have numbers from **1 to 9**. We never consider zero as a number in numerology.

1 is the number of the **Sun**

2 is the number of the **Moon**

3 is the number of **Jupiter**

SOORAJ ACHAR

4 is the number of **Rahu**

5 is the number of **Mercury**

6 is the number of **Venus**

7 is the number of **Ketu**

8 is the number of **Saturn**

9 is the number of **Mars**

Some planets are friendly to us, while some are enemies, and some of them are neutral. Same as the people in our society. In our society, some people are friends, some are jealous of us and some of them don't care about us.

I always say that your date of birth is so precious. God has placed many diamonds on your date of birth that you are not aware of. It doesn't matter if your date of birth is good or bad. The idea is how you can take the best out of your date of birth.

If we can extract the best from your date of birth, if we can reduce your struggle, if we can provide some happiness in your life, you can say that numerology works. If we cannot do all these things, you can say that numerology doesn't work.

People always ask me, does numerology really work? My only answer is that you should try it first. If it works for you, it definitely works, and if it doesn't work for you, you can say numerology doesn't work.

Let me show you some flavors of your date of birth. On your date of birth, there are a total of 81 combinations of driver and conductor numbers that decide the direction of your life.

When we make a chart from your date of birth, you can see that some numbers are absent and some are present in your chart. There are eight types of lines and 8 types of yogas in every chart. My date of birth is 02 May 1991. My driver is 2 and my conductor is 9, which is not a good combination, but still, I know the strengths of my date of birth. The only question is how you identify the strengths and weaknesses of your date of birth. How do you explore your strengths and how do you overcome your weaknesses? You will

be unstoppable if you know how to explore your strengths and how to overcome your weaknesses.

Numerology is the only thing that can explain it.

No one has all 8 lines completed in their chart. Numerology teaches us how we can fulfill the missingness of numbers. If a number is missing from your date of birth, you can still achieve its qualities with the help of numerology. Some numbers can occur multiple times on the date of birth.

Our **Name Spelling** also plays an important role according to our date of birth. Believe me or not, 30 to 40% of your success or failure depends on your name spelling. If you keep your name spelling correct, you can achieve 30% to 40% more success in your life. Originally, my name was Suraj Achar, but I changed it to Sooraj Achar. The sum total of my new name is 6, which is a very good combination. I saw a huge uplift in my success just after I changed my name. My clients' lives have completely evolved and transformed as I suggested the spelling of their Names/Business/Product Names.

According to your date of birth, we can even predict your future years, months, and days. When you know the nature of your future years, you can make better decisions. With your date of birth, we can identify which colors are lucky for you and which ones are unlucky.

If you are able to do these unbelievable things with numerology, how can you say that numerology doesn't work? Numerology 100% works, it is purely and surely science.

Reason for Writing This Book

It is for the express purpose of answering and clarifying the above questions and many others of a similar nature that motivated me to write this book. I have endeavored to explain the great fundamental truths of your strengths and weaknesses in the simplest language possible. I believe that it is perfectly possible to explain the basic, foundational, and fundamental laws of life and your mind in ordinary everyday language. You will find that the language of this book is used in your daily papers, in your business offices, in your home, and in the daily workshop.

SOORAJ ACHAR

I urge you to study this book and apply the techniques outlined therein; and as you do, I feel absolutely convinced that you will lay hold of a miracle-working power that will lift you up from confusion, misery, melancholy, & failure, and guide you to your true place, solve your difficulties, sever you from emotional & physical bondage, and place you on the royal road to freedom, happiness, and peace of mind. This miracle-working power of your date of birth can heal your weaknesses, make you vital and strong again, and navigate your life through Numerology.

ONE INTRODUCTION TO NUMEROLOGY

"Mathematics is the Language with which God wrote the Universe."

- Galileo Galilei

Hello, and welcome to our First Chapter.

This book is all about the **Numerology Foundation Guide**, which is the **Master Your DESTINY With Numerology**. What are the best techniques you should adopt so that you can grasp the course content and implement it in your life? I am sharing some little things with you.

Firstly, I want you to set a time for the next ten to fifteen days (maximum) to complete this particular numerology foundation course. It's up to you if you give it one or half an hour daily. Find a perfect time frame for your day, and mark the date on the calendar on which date you started. In my opinion, it should not take you more than 15 days to complete the course.

Second thing- I will talk to you about various topics but I am telling in you advance that there will be a topic “**Compatibility of Numbers**”. Which I always say is the **Soul of Numerology**. You should spend maximum time on this topic. Due to any reason, if you didn’t understand the topic, it would be a sheer waste of money and time because, without this topic, you can never understand numerology. You can’t understand further topics like- making predictions, Name spelling correction, answering someone’s questions, finding lucky numbers and lucky colors, matching two people, and many topics like this. Mainly the most important topic- is the **Name Spelling Correction**.

You can see how much time, how much focus I am putting into this particular chapter “Compatibility of Numbers”. This is the soul of numerology. And in other words, it is the doctor of numerology. Do you know a doctor who is MD or MS and doesn’t know how to use a stethoscope? In the same way, if you didn’t get the “Compatibility of Numbers” chapter, you will be just like a doctor who is an MD but doesn’t know how to use the stethoscope. I promise you that I will teach you this topic in the most logical, scientific, and story-based way so that you will surely understand the topic. That is my commitment to you.

After that, there will be a topic on “**Driver-Conductor Combination**”. There are a total of 81 combinations deciding the journey of our life, the success and the failure of our life, and in which sector we want to go. That’s why it is also going to be a very important chapter.

What do I actually want to achieve? When we are attached together, what is my goal towards you? My goal is that you make this your profession. There is a slogan, “The best disciple is the one who makes it a profession and makes money with it.” That is my dream.

I am giving you a very realistic figure. That may look challenging to you, but actually, it’s not challenging. When you complete the entire course on numerology, you will be making 5 lakhs rupees per month with this profession. This is my dream and I want you to sink with my dream and generate 5 lakhs per month income within one year. If you are ready, if this is your belief, this is my belief as well. That’s my aim.

But if you think you are already in a good profession and generating a handsome income already and don’t want to make it a profession. There is not any problem. If you learn perfectly the method of analyzing your date of birth if you start understanding the science

of these numbers and learn to implement this in your life. If you do not take it as a profession, you can even transform your life. It can be beneficial for your children and your wife or husband. It can be beneficial for society. It would be a great contribution to yourself, your loved ones, and your society. Right!

So, if you do not make it a profession, use this to transform yourself and teach society to transform. That is my dream and your dream as well. So, let's patch up together and make our dream come true. Be prepared for our next topic from where the real game of numbers is going to start. Now the magic begins with the next chapter, "Types of Numerology". Which, we will talk about how many types of Numerology are there and which one we are going to adopt. So that's all.

Let me remind you that this course must be completed in ten to fifteen days. Make it a commitment to yourself. And you have to learn the topic "compatibility of numbers" with perfection. If you didn't understand this topic, you would be incomplete. It is like it is raining on you, but your pot is still empty. So, your pot must be straight and there should not be any holes in this.

If you want to transform your life, this is absolutely for you only, but you have to give a firm commitment to yourself as well. If you are ready, I am also ready. There is no reason that we will not be able to change our future. Yes, we will definitely change our destiny, but through a transformation, not through miracles.

I want to share my thoughts with you. First, if you learn numerology, you will be awakened, and if you are awakened, life is likely to be transformed. And if you transform your life ultimately, what will you achieve through numerology? You will be able to navigate your life.

I always say life is all about awakening, transformation, and ultimately, how to navigate your life. If you succeed in navigating your life, it will be a great achievement in your life. And I always say no miracles. Do not believe in miracles. I believe in karma, karma, and karma. If you can navigate your life with karma, you can overcome all the challenges coming into your life. So that's all for now. Be ready for the next chapter.

Two

MAGIC OF LO-SHU GRID & TYPES OF NUMEROLOGY

“Numerology projections will fascinate you for your entire life.”

-William Kennett

In this chapter, we are going to start our journey with numbers. We will only talk about numbers, numbers, and numbers.

When we talk about numbers, what actually numbers are in our life? Where did these numbers come from? And what is their importance?

I believe that as we are born; we are attached to numbers. I was born on 02 May 1991. There are 2, 5, 1, and 9 in my date of birth. You can see there are many numbers in our date of birth. Some numbers may be missing and some may be repeated. And even after we are born, we also get attached to many numbers.

When we get admitted to school, we are given a roll number. After our exam, we get a percentage of numbers. And after we get a job, our salary is also a number. When we check in at a hotel, we are given a room number and as we board a train; we are given a ticket number, a train number, and a seat number. I can give you many examples like this.

So, we can say that if there is life, there are numbers and if there are numbers, we cannot get rid of the numbers. While we see numbers all around us, don't you think that you should learn the language of Numbers? Don't you think you should learn how to implement the language of numbers in your life and transform your life with it?

If you are new to this field, it may look strange to you, but believe me, there is a language of numbers and we are going to learn it.

You will be mesmerized as we go on this journey.

You will be amazed after seeing what's in your date of birth. You will come to know why your father behaves like this and why your mother/wife/friends and children behave like this. After knowing the language of numbers, you can predict what is going to happen to you this year, what decision you should take, and what is the perfect time and year for that decision.

If you are alive, you cannot run from the numbers and I will not let you run.

When we learn about numbers, we will come to know about numerology. And if you talk about numerology, there are many types of numerology available throughout the world.

The Main Types of Numerology are:

1. Chinese Numerology
2. Vedic Numerology
3. Cheiro Numerology
4. Chaldean Numerology
5. Pythagorean Numerology

6. Western Numerology

We are going to learn three types of numerology. But our base will be Chinese numerology in which we will talk about the Loshu grid. And we will also learn Vedic and Cheiro numerology. Cheiro is considered the God of Numerology, same as we say Sachin Tendulkar is the God of Cricket and Maradona is the God of Football. We use Cheiro mainly for name spelling correction. Cheiro's contribution to the name spelling correction is incomprehensible. From Chinese numerology, our base will be the loshu grid. So, what is loshu grid and why did it get this name?

Loshu Grid:

4 RAHU	9 MARS	2 MOON
3 JUPITER	5 MERCURY	7 KETU
8 SATURN	1 SUN	6 VENUS

Loshu Grid has 9 blocks in 3X3 format. There are 9 blocks because we have 9 numbers from 1 to 9, and each number has a particular place. You can see 3 vertical, 3 horizontal, and 2 diagonal lines. They are called types of yogas in numerology. The fun fact is if you make a total of all the numbers along a line, you will get 15. And if we add numbers 1 and 5 (from 15) we will get 6. The number 6 is the number of luxury and glamour. Every line of the loshu grid has its own name, and it represents something. We will talk about them

in our next topics. We will learn what is the importance of each line, what it tells us, how it decides our personality traits, and how our strength is decided by them.

The game is going to be very interesting. You will learn to play with these numbers in your date of birth. You will find that some numbers are present while some are absent and some are repeating.

I hope you are enjoying it.

What is the success of life? You know why some people are successful while others are not. Do you know what the difference is? Let me tell you the difference.

If a person can know what his/her strengths and weaknesses are. He will be able to explore his strengths and overcome his weaknesses. If you are able to do these two things, you will be unstoppable.

I will teach you to find these possibilities and I will also talk about lotteries in your date of birth. Yes! There are lotteries in your date of birth. And we will also learn to make your Numeroscope!

That's all for now.

Stay tuned!

THREE

3-LOTTERIES & NUMEROSCOPE

“Numbers are the highest degree of knowledge. It is knowledge itself.”

- Plato

I hope you are doing well and enjoying our numerology program. In the previous chapter, we talked about the types of numerology. I hope you learned about that topic very well. Today, I am going to teach you about a very interesting topic. This topic is the base of numerology.

First of all, I will tell you that on every date of birth, there are three types of lotteries. Yes! I am talking about the lotteries. I hope you have played many lotteries in your childhood. In that lottery, there were some numbers and with each number, we used to exchange something like toffees or candy or marbles and chocolates. But sometimes that number didn't match with any item and the shopkeeper used to say that your lottery is empty.

Did you ever think that at your date of birth, God has given you many lotteries? These lotteries may be full or empty.

Today we are going to check for all three lotteries on your date of birth. Let's see three types of lotteries in numerology. What are they? What is their effect? How can we use them in our lives?

So let's start with our three lottery programs.

For example, consider the date of birth as 13 Feb 1967.

The first lottery is the **Driver Number** - a driver number is your first date. 13 Feb 1967 In this example, we have three elements: first is the date, second is the month and third is the year.

So in this case, the first number is 13. If you add both digits of 13, you will get a 4 ($3 + 1$). Now the driver number has come out as 4. Whichever is your date of birth, add all the numbers and put the total in front of the driver's number. If the number is 10 or 20, it will be considered as 1 and 2. There is not any use of zeros in numerology.

Our second lottery is the **Conductor Number** - the conductor number is your date + month + year. In this case- $1+3+0+2+1+9+6+7 = 29$ and we also need to add 29. So $2+9 = 11$ and the same way $1+1 = 2$. Now 2 came out as the conductor number. Add all your double digits and make it a single-digit number.

This is the terminology. Actually, the Driver Number is called the "**Psychic Number**" and the Conductor Number is called the "**Destiny Number**" or "**Life path number**".

Our third lottery is the **Kua Number** - this can be a bit confusing but don't worry, I will explain it in a very easy way.

To find out this number, you just need to add your birth year. In this case, $1+9+6+7 = 23$, and $2+3$ is equal to 5. The year may be the same, but the Kua number for males and females can be equal and different. We will now discuss a formula to find out the Kua number for males. To find out the Kua number of males, you need to subtract the sum of the birth year from 11. In this case, after subtracting 5 from 11, we are getting $6(11 - 5 = 6)$. This is how, as a male, Kua's number came out as 6.

If a Female is born in 1967, how we will find out her Kua number? In the case of females, we need to add 4 to the total birth year. In this case, for females, $5+ 4$ will be equal to 9 (the

SOORAJ ACHAR

sum of the birth year was 5, and I added 4 in it because we are finding it for females). This is how, if a male is born in 1967, his Kua number will be 6 and if a female is born in 1967, her Kua number will be 9.

Now we have found out all three lottery numbers. Now we need to see if this lottery is filled or empty.

You can see the driver number is 4. Can you see four in date of birth? In this case, 4 is not in the date of birth. If your driver number is not in your date of birth, your lottery is filled. If you can see your driver number on your date of birth, your lottery is empty.

Let's move forward to the conductor number. His conductor number is 2 and I can see the number 2 in the date of birth because his birth month is February. His conductor number matches with a number in his date of birth. That's why his second lottery is empty.

In a special case, suppose, if your driver number and conductor number are the same and not present on your date of birth, your lottery will be filled only one time and the second time it will be considered empty.

Now let's move forward to Kua's number. His Kua number is 6. I can see 6 in his date of birth in his birth year 1967. As number 6 is already present on his date of birth, his third lottery is also empty. Overall, In his case, his first lottery is filled and his other two lotteries are empty.

In many cases, you can find all three lotteries are filled or maybe all three lotteries are empty, it depends. If your lotteries are empty, don't be upset. Our mission is to find out the best from your date of birth.

Till now we understood how to drive all three numbers from our date of birth and check for all three lotteries.

Now we will learn how to make a Numeroscope. I am writing this date of birth again, 13 Feb 1967. Now I am going to make his chart. Sometimes I call numeroscope a chart so don't be confused.

For making the chart we need to go through the loshu grid. Loshu grid is also called the Lakshmi Yantra in India.

Numeroscope:

4 RAHU	9 MARS	2 MOON
3 JUPITER	5 MERCURY	7 KETU
8 SATURN	1 SUN	6 VENUS

A numeroscope is a 3X3 grid that contains a total of 9 blocks. You have to write each number from your date of birth in this grid with reference to the Loshu Grid. Also, fill in your conductor and Kua number in the grid. It is allowed to repeat numbers on the same block if a number is already present.

Now a question comes to our mind: should we fill our driver number in the grid or not? If your driver number is coming from a two-digit number, you can fill it. As in this date of birth, his driver number is coming from 13, and 13 is a two-digit number, so I should fill in his driver number in the grid. Now let's see what to do if your driver number is coming from a single-digit number. If the number of your date of birth is between 1 to 10, there is no need to write this because you have already written the number.

I am sharing some examples of dates of birth with you.

Let's take the example of two different males named Suresh and Mahesh. The date of birth of Suresh is 15-01-1987. We will fill all these numbers in a numeroscope with reference to the loshu grid.

4	9	
	55	7
8	111	6

$D=6, C=5, K=4$

4	9	
	5	7
8	11	6

$D=6, C=5, K=4$

Now let's see those three numbers. In the case of Suresh, the driver number is 6, the conductor number is 5 and the Kua number after subtracting from 11 comes out as 4. Now let's fill in the conductor and Kua numbers.

It's time for Mahesh.

Mahesh's date of birth is 06-01-1987. His driver, conductor, and Kua are the same as Suresh.

After filling these numbers into the numeroscope, we can see that the middle block of the 2nd and 3rd rows is different in both cases. In the middle block, it was 55 in the case of Suresh and only 5 in the case of Mahesh. Also, 1 is repeated thrice in the case of Suresh and twice in the case of Mahesh.

Now let me explain to you two more numeroscopes of females.

Our two females are Anita and Sunita.

The date of birth of Anita is 10 March 1987. Let's make a numeroscope for Anita.

	9	22
3		7
8	11	

$D=1, C=2, K=2$

The driver number of Anita is 1 and conductor number is 2 and the Kua number after adding 4 is 2. Her driver number is matching with the number in her date of birth so this lottery is empty for her and according to the conductor number her lottery is filled. Kua number is also 2 but there is already a filled lottery with the number 2, so the lottery with the Kua number will be considered empty. Do we need to fill the driver number 1 in the numeroscope? No, because it is coming from 10.

Let's talk about Sunita. Her date of birth is 19-03-1987. Her driver conductor and Kua numbers are the same as Anita's. Fill in all these numbers in the chart.

	99	22
3		7
8	111	

$D=1, C=2, K=2$

After comparing both numeroscopes, you can see that the number 1 is coming two times in the case of Anita and three times in the case of Sunita. Also, 9 is once in the case of Anita and twice in the case of Sunita.

I hope that you have learned how to make a numeroscope.

Now let me try to show you the dimensions. In Anita's case, the first line is incomplete, the second line is incomplete and the third line is also incomplete. It is giving us a signal

that her numeroscope is very weak. Some numbers show up only one time, while others are repeated and some are missing. It is also a dimension if numbers are missing or repeating.

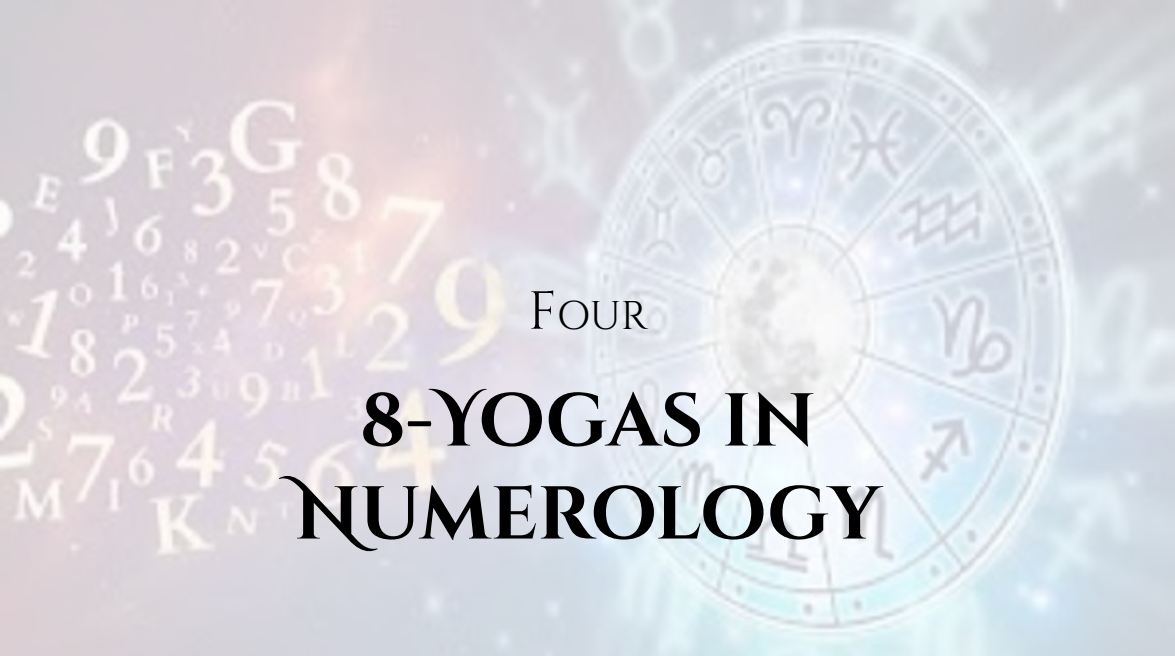

There are a total of 81 combinations of driver and conductor. Some combinations would belong to category A and some would belong to category B. We will discuss these things in our next topics.

SOORAJ ACHAR

So be ready for our next topic. On that topic, I will talk to you about 8 types of yogas in your date of birth.

And for practice, try making some numeroscopes for your family members.

FOUR

8-YOGAS IN NUMEROLOGY

“Numbers are the universal language offered by the deity to humans as confirmation of the”

-St. Augustine of Hippo.

Hello, and welcome to our new chapter. I hope you are done with our previous chapters - numeroscope, driver number, conductor number, and Kua number. And I asked you to make numeroscopes for your family members and friends. I hope you did this.

Let's begin with a new topic- it's a very interesting topic. As I promised you on our previous topic, we will learn what is in our date of birth, and what is the function of the 8 types of Lines and Yogas. What these Yogas tell us about our personality and our traits. In this topic, we learn some attributes and how these lines tell about your strengths or weaknesses.

So, let's begin with the new topic- **8 Yogas in Numerology**

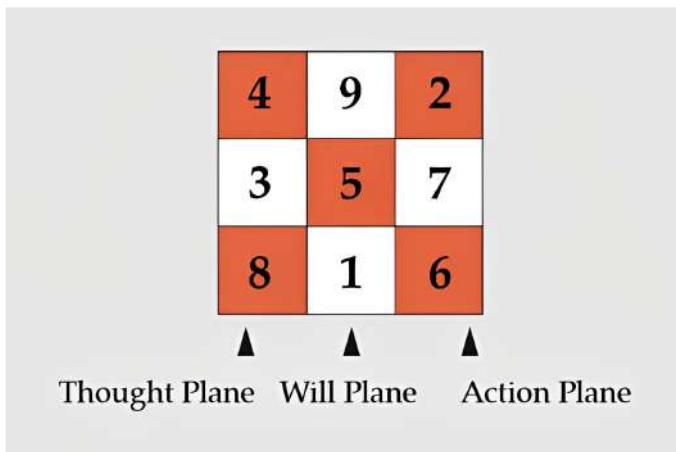

What is my meaning of this? For reference, refer to the Loshu grid.

4 RAHU	9 MARS	2 MOON
3 JUPITER	5 MERCURY	7 KETU
8 SATURN	1 SUN	6 VENUS

As I told you earlier, there are 8 types of lines and yogas. 3 vertical, 3 horizontal, and 2 diagonal lines.

4, 3, 8 is first, 9, 5, 1 is second, and 2, 7, 6 is the third vertical. And so on you can check for horizontal and diagonal lines. What do these lines tell us?

First of all, let's see three **Vertical Planes/Lines**.

Our first vertical line is 4, 3, and 8. The first vertical line of someone's numeroscope is called the "**Thought Plane**" and if 4, 3, 8 are present in that plane it means that the thought process of that person is very strong. This type of person has an extreme ability to think. They are also prudent. You may have seen a person saying that we should buy this property now for 5 lakhs and after 10 years it will be valued at 50 lakhs. And after 10 years, you see that the property is actually having a value of 50 lakhs. Because this type of person has a different vision, which he has the ability to predict. This type of person is rich in discipline, organization, and visualization.

After 4, 3, 8 our next plane is 9, 5, 1, and it is called the "**Will Plane**".

Persons who are born in the last century 9 and 1 are common in everyone's date of birth. So 9 and 1 is not going to make any difference in this particular plane. So which number is going to make the difference? Remember, number 5 is going to make the difference. 5 is the soul of this "will plane". If someone has 9, 5, and 1, I will say his willpower is solid. In a single line, I will say these people are the real fighters. This type of person can handle extremely hard situations. They have the ability to bounce back again and again whenever they are out of track. They can fight physical, emotional, and financial problems. It is very difficult to identify these people by seeing their faces. They are different from the inside and look different from the outside. They look the same, no matter if they are happy or sad. Because number 5 is balancing their personality and life between 9 and 1. If you correlate with the numbers of your life, you can see how these numbers are affecting your life.

So let's move forward.

2, 7, and 6 is our third vertical line. It is called the "**Action Plane**". I shared with you one numeroscope example in our last chapter, in which you can see that the numbers 2, 7, 6 are present in the numeroscope. So you can say that he is an action-oriented person. Action-oriented meaning is that if this type of person makes a decision in their life, it is next to impossible they will not act.

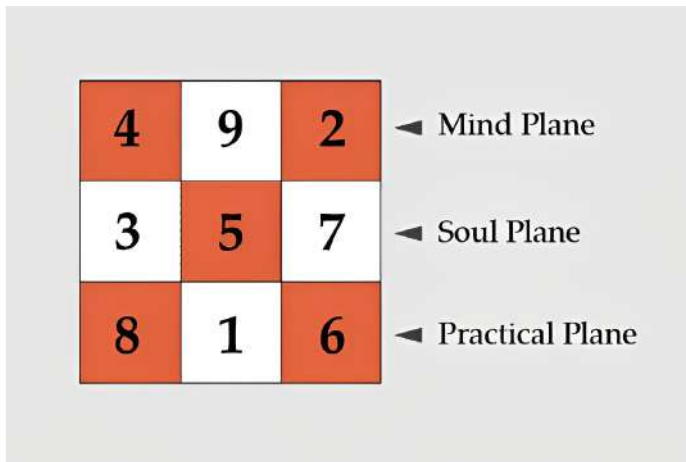

Let me explain to you, with an example.

If this type of person goes to a shop and sees a pen there and likes the pen worth Rs. 50. They will immediately buy the pen when they know that they can find the same pen for Rs 40 in another shop. Once they make up their mind, they will not delay, they will just

act. If someone has 2, 7, 6 he/she can't control their excitement. They are always excited about life. Their decision may be right or wrong, but they will definitely convert it into action.

These were all three vertical lines.

Now we have 4, 9, and 2 in our first **Horizontal Plane/Line** and it is called the “**Mental Plane**”.

9 are common for all born in the last century and 2 are common for all born in this century. If these three numbers are present in someone's numeroscope, I will say in one line that they are people with God-gifted brains. They can remember everything they see. They are mentally very strong and they have a very sharp memory. This type of person is very intelligent and they can process intellectual capability. Suppose there are 10 people, 9 people are going in the same direction; this one will go the other way. And after some time, they will all realize that this person is going in the right direction.

The next three numbers on our second horizontal plane are 3, 5, and 7 and it is called the “**Emotional/Soul Plane**”. These people are ruled by their emotions. Their heart rules over their brain. This type of person is golden-hearted. They believe very easily, they trust anyone very easily. And they may fall into trouble because of this nature.

Let's see an example.

If a person comes to this type of person for help. The person had cheated them twice; they will still help this person knowing that he will cheat them again. They know that they are going to fall into trouble again, but they can't control their emotions.

The punch line for this type of people is- their heart rules over their head, they are trustworthy people and they are the people with the golden heart.

The next horizontal line is 8, 1, 6, and it is called the “**Practical Plane**”. This type of person moves forward in their life with a practical approach. When you talk to this type of person or you discuss a project with them, they will ask what? why? When? Where? How?

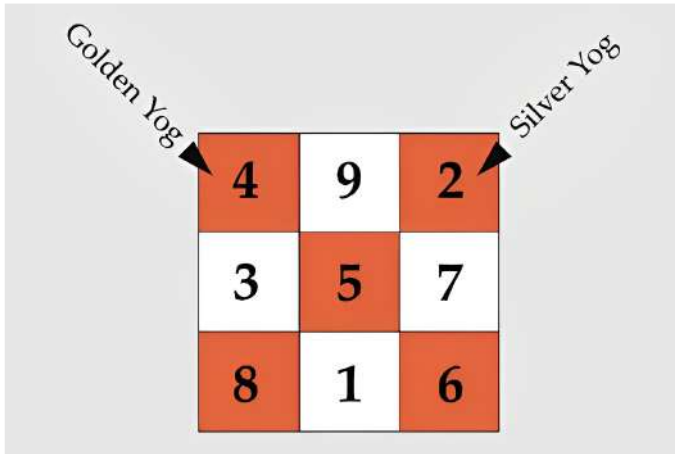

They like to go into the depth of things. They have an analytical brain. They approach everything in a logical and scientific way. It is very difficult to teach this type of people; it is very difficult to win logically from this type of people.

Suppose you are asking this type of person to go with you on a tour. He will ask you- what is the departure time? What is the mode of transfer? Are we going by airplane or train or bus? What would be the budget?

What type of weather is there? And after asking too many things, they will decide whether to go or not. It means they are going through details, details, and details, then they are deciding whether to take action or not.

Hope you are enjoying this.

Now let's move forward to two **Diagonal Planes**.

Our first Diagonal Plane is 4, 5, and 6, called the “**Super Success Line**”. In our Hindu mythology, it is known as “**Raj Yoga/Golden Yoga**”. You will rarely find a person containing these three numbers in their numeroscope. These types of people get super successful in their lives. They have a large figure of money. They have the fame, they have the name and they are on a higher level. If you have 4, 5, and 6 in your numeroscope, you are opting to be successful in your life.

I have some examples:

- Baba Ramdev- is a simple common man, and he does not have any degree, but you can see where he is.
- Shri Shri Ravishankar
- Amir Khan
- Sonia Gandhi
- Sanjay Lila Bhansali
- Anil Kapoor
- You must have heard about Johnny Lever- is a short-height person. His physical appearance is not so mesmerizing, but you can see from a bus conductor where he is now.

So if 4, 5, 6 are in your numeroscope, you are opting to be successful. If you have 4, 5, 6 and you are not successful, believe me, you just need a spark. You are very near to being successful. If this is in your date of birth, you must have to be successful.

You must have heard that after a child's birth in a family, the parents become very successful. It happened because the child was containing 4, 5, 6 and he will get his success, his luxury through his parents. Even his father doesn't have a good numeroscope. You must have heard that after getting married, a person becomes more successful. These are the common examples you must have observed in your life.

Our last line, our next diagonal line is 2, 5, 8, and it is called the **“Success Line/Silver Yoga”**.

It is different from the super success line. If you have these numbers, you are also opting to be successful. We also call 2, 5, 8 the **earth elements**. This person will have his own house in the early stage of his life. They are successful in the property business. They get benefits from real estate. They invest a little in the property and get a large profit from it. According to the earth elements, they are also successful in the agricultural field and farming.

We are done with all 8 lines and I hope you understood each and every line very well.

I want to repeat one line again.

9, 5, 1 - first I named it **“will plane”**. It is also called the **“symbol of success”**.

If you don't have 4, 5, and 6, and if you also don't have 2, 5, 8, but you have 9, 5, and 1. You deserve to be successful. If you are still not successful, there are some missing things we will talk about in our next lectures. 70- 80% of successful people have common factors 9, 5, 1 in their numeroscope. You can check for Bill Gates, Warren Buffett, Jeff Bezos, Mukesh Ambani, and Sri Sri Ravi Shankar.

There may be a question in your mind that if someone doesn't have all three numbers or they have only two numbers or they have only one number or they do not have any of these numbers, then what will happen?

Let me show you the same example: date of birth, which is 13 Feb 1967. After making the numeroscope, in the first vertical line, you can see that the number 8 is missing and in the

second vertical line, the number 5 is missing. And if I see the eight yogas, he has only two yogas 4, 9, 2, and 2, 7, 6.

When we talk about strength, we will check for fully completed lines. If the lines are complete, they are your **strengths**, and if the lines are incomplete, they are your **weaknesses**. If you can identify your strengths and your weaknesses, it will be very easy to navigate your life. But don't worry if you have many incomplete lines, because you will know how to navigate your life in the next chapters. You saw that a line can contain all three or double or single numbers. Now we will see if, in a single block, there are numbers in pairs.

For example, Let's talk about 438. How many pairs it will form: (4, 3) (3, 8) (8, 4)

If there are 4, 3, and 8, I will say that your thought plane is giving you 100% power and your plane is excellent. And if only two numbers/a pair are present, I will say it is giving you 66% power and your plane is good. And if there is only one number present, I will say it is giving you 33% power and your plane is okay.

If not a single number is present, then I will say your plane is weak, and it is not giving you any power. But it is possible that your other planes may be strong. If you do not have these numbers, you can still have success in your life because you are able to navigate. We will learn how to explore whatever numbers we have.

We will learn how we can fill the gaps of missing numbers and how we can use repeating numbers. We have all the tools to increase the ratings of your date of birth. We will learn them all in our future chapters.

That's all for now!

FIVE

COMPATIBILITY OF NUMBERS

"If you only knew the magnificence of the 3, 6, and 9, then you would have a key to the universe."

- Nikola Tesla

Hello, and welcome to this very important topic. In our last chapter, we discussed 8 Lines/Yogas on the date of birth that tells about our weaknesses and strengths in our lives and our personality traits as well. Don't forget to revise our other previous topics like lotteries, conductor numbers, driver numbers, and Kua numbers.

The topic we are going to discuss now is the soul of numerology. I previously told you that I call this topic the **"Stethoscope of a Doctor"**. Yes! you guessed it right, the **"Compatibility of Numbers"**.

First of all, let me tell you the importance of this particular topic. For any reason, if you don't understand this topic, you cannot understand further topics of numerology because, in all the topics of our numerology professional course, you have to use this system. Like if you want to discuss future years, if you want to discuss at what time our

SOORAJ ACHAR

future event would occur if you want to do name spelling corrections if you want to match the compatibility of two people, if you want to find out lucky numbers or Lucky colors. Every topic we will discuss is interconnected with this topic.

Therefore, this is my humble submission. This is my utmost request. Please read this topic very carefully. It is going to be very interesting, very scientific, and very logical. I will teach you passionately in a very logical way so that you do not face any problems in learning this topic.

So let us get started.

How many numbers do we have? From 1 to 9, we have a total of 9 numbers and how many planets do we have? They are also 9.

Which number is denoted to which planet and what is its definition?

Let's know together.

4 RAHU	9 MARS	2 MOON
3 JUPITER	5 MERCURY	7 KETU
8 SATURN	1 SUN	6 VENUS

1. Number 1 is associated with the sun. And we know that the **Sun** is the **King** of all planets. That's why number one is also called the king's number.

2. Number 2 is associated with the **Moon**. Moon is called the **Queen**.

For better understanding, I am explaining to you in a story-based way.

3. Here comes the **number 3**, which is associated with **Jupiter**. Jupiter is like a master, so we call Jupiter the counselor. It is also called the **Guru of Gods**.

4. Now, the **number 4** is associated with **Rahu**, and Rahu is called **Robin Hood**. In our local language, we call it gangster, but the positive gangster. How? Have you heard about the personality of Robin Hood? Robin Hood robbed the rich and distributed the money among the poor. If we look from the point of law, he was a criminal, but if we look from the point of poor, he was God for them.

5. Number 5 is given to **Mercury** and Mercury is just like **Prince**.

As you know, in a royal court, there is a king, prince, and queen counselor, and sometimes a gangster may be there for the king's help or to ask for help from the king.

6. Number 6 is **Venus's** number. Venus is also a counselor as Jupiter. The difference is that Jupiter was the **Guru of Gods** and Venus is the **Guru of Devils**.

7. Ketu holds the **number 7**, and it is called the **shadow planet**. Why is number 7 considered just like a shadow? Have you heard of a mythological story? There were two parts of a body: Rahu and Ketu. **Rahu** was the **upper** part and **Ketu** was the **lower** part. As Ketu is the lower part of the body, it does not have a head. It means Ketu needs a head and this head can be the head of other planets like Rahu, queen, king, or prince. Ketu does not have its own identity. Whichever head it gets, it speaks the language of that planet.

When we walk on the street in the sunlight, we can see our shadows. Is there any identity of our shadow? When you move in the shade, you find your shadow has disappeared. Ketu is just like a shadow. It depends on your movements.

8. Number 8 is associated with **Saturn** and we call Saturn the **Judge**. It gives you benefits according to your karma. Just like the judge of the Supreme Court, first, they check all the facts and then give the decision. They don't have any friend or enemy and their decision is only based on facts.

9. Number 9 is associated with **Mars**, and we call Mars the **commander**.

This is how all nine planets represent a rank in the king's royal court.

Now the real game will begin. Now we will talk about the compatibility of numbers.

Compatibility of Numbers:

Every number has its friends, non-friends, and neutral numbers. We will understand them at this table.

NO.	FRIENDS	NON-FRIENDS	NEUTRAL
1	9,2,5,3,6,1,	8	4,7
2	1,5,3,2	8,4,9	6,7
3	1,5,3,2,7,	6	4,8,9,7
4	7,1,5,6,4,8,	4,8,2,9	3
5	1,2,3,6,5	~~~	7,8,9,4
6	1,5,7,6	3	8,9,2,4
7	4,6,1,3,5	~~~	8,2,9,7
8	5,6,3,7,4,8	4,8,1,2	9
9	1,5,3	4,2	6,7,8,9

1. As you know, number one is the king's number. When do I ask my disciples who are nearest to the king? Some say that it is the Queen, some say it's the Prince, and some say it's the counselor. But no one tells me the correct answer. Let me tell you. The nearest to the king is number 9 the commander. No doubt the Queen is near the king, no doubt the prince is near the king, but most nearer the king is the commander. The king needs to run his Kingdom; the king needs to win other kingdoms. King shares the secrets with the commander, which he shares with no one. All the coups that happened in history were done by commanders. That way, the King has to be in a good relationship with the commander.

After the commander, the king is near the queen, and after the queen comes the prince. I write all the numbers in the friends' column in decreasing priority order.

King has a problem with Saturn, so we write the number 8 in the non-friends column. What's that problem? There is a story that says that Saturn was the illegitimate son of the sun. It is said that the sun made relationships with Chaya, the mother of Saturn. The color of Saturn was Black same as his mother Chaya. Sun got in trouble. He thought if he took Saturn with him to his Kingdom, what would the people of the kingdom say? I will be very insulted. Sun said to Saturn that Saturn can keep all his money, all his everything, but he can't call Saturn his son and also can't call Chaya his Queen.

Saturn told the Sun- I don't need your palace. I don't need your money. I only need you to call me your son and make my mother queen. After a long dispute, the sun refused to accept Saturn as his son. Now Saturn said that my father is my biggest enemy.

That's why we call Saturn and the sun the Anti planets.

Numbers 4 and 7 are neutral for the sun.

Why are numbers 4 and 7 going in neutral?

number 4 is a gangster and why does the king need Robin Hood?

Let me explain with an example. Suppose you want your house back from your tenant, but your tenant refuses to leave your house. You went to court but lost the case. In this case, you have to hire a gangster. Right!

That's why the number 4 is a neutral number for 1. We only need the number 4 in some special cases. Now why number 7 is also neutral? Because Ketu does not have his head. What is the need of a person who does not even have a head?

Remember, this is very, very important. I am trying my best. I am putting my soul into it so that you do not have to face any problems.

2. Let's talk about the number of queens in the next row. In the friends' column of the Queen first comes the King (1) then, Prince (5), Jupiter (3), and the queen herself. Who is in the non-friends column of the Queen? It is Saturn. Because he is her stepson. According to scientific reasons, the number 8 is like iron, and the number 2 the moon is like water. If you mix iron and water together, they will form rust. So they can't live together in a single column. Do you wonder why Saturn is called iron? Because Saturn is like a judge, his heart is so hard, his judgment is based on nothing other than facts.

So why do we call the moon - water?

Because the moon causes tides in the ocean. It is the moon's gravity that is responsible for causing tides in the oceans of Earth.

Number 4 Robin Hood is also in the non-friends column of the Queen. But why? Because the Queen does not like any gangster.

Number 9 Mars, the commander, is also in the non-friends column of the queen. But why? Because the Queen is jealous of number 9 because the sun spends more time with Mars instead with the Queen. Also, Mars does not take commands from the Queen. Mars only obeys the king.

Now Venus and Ketu, the number 6 and number 7, are in the neutral column of the Queen. Because the Queen rarely needs the advice of the chancellor and she rarely needs the weak and headless planet, Ketu.

3. Let's talk about number 3, Jupiter, in the third row of our table.

In the friends' column of Jupiter in the first place, there is King. Thereafter number 5 the Mercury because Mercury is the upcoming king. after that, Jupiter comes by himself.

Jupiter does not have any problem with the queen (the number 2).

In the non-friends column of Jupiter, there is Venus (the number 6). Because number 3 is the Guru of gods and number 6 is the Guru of devils. They are against each other.

Jupiter has no problem with Rahu, Saturn, Mars, and Ketu. That's why numbers 4, 8, 9, and 7 are in the neutral column of Jupiter.

Number 7 can also be in the friends' column of Jupiter because 3 is the number of knowledge and 7 is the number of wisdom. Knowledge and wisdom blend with each other very perfectly.

4. Now let's talk about number 4 in the fourth row of our table.

Think to yourself who may be the friends of number 4? Many students cannot think about it.

Let me tell you.

Number 4 is the closest to number 7.

Because the number 4 is the head and the number 7 is the body. What the head needs is the body and what a body needs is a head. When numbers 4 and 7 meet each other, they complete the body. Thereafter number 1, the king is in the next place. Because Robin Hood always needs a king. Robin Hood always wants to patch up with the king to prevent his problems. Thereafter, it is compatible with the number 5 because he knows that the number 5 is the upcoming king. Thereafter, it is comfortable with the number 6. Because the gangster and the Guru of devils have the same nature.

Number 4 and number 8 may be in friends and they also may be in the non-friends column of number 4. Number 4 and number 8 can be best and can be worst for number 4. If they are far away from each other they are in the best condition. But if they are closer to each other, they are in the Worst condition.

Let me explain with some examples.

If my driver number is 4, my mobile number, my business number, my house number, my vehicle number, and my wife are my permanent relationships. If numbers 4 and 8 are in a permanent relationship, then they are the worst and if they are far away, they are the best. We will discuss everything later.

Here comes the number 2 and number 9. Both numbers are in the non-friends column of 4. Because Queen number 2 does not like gangsters, and number 9 the commander also hates the gangster.

And in the neutral column of 4, there is only 3, Jupiter. Jupiter does not want a deep relationship with a gangster, but he knows that the gangster can be helpful in some cases.

5. Now it's time to talk about number 5, the prince, the mercury.

Mercury is closest to the king, his father. Thereafter number 2 (the moon), number 3 (Jupiter), and thereafter number 6 Venus. And at last, the prince is also compatible with the Prince. That's how numbers 1, 2, 3, 6, and 5 are in the friends' column of 5.

Interestingly, there is no one in the non-friend column 5. You may hear that this or that is the enemy of Mercury, but I can prove with logic that there is not a single enemy of Mercury.

Just suppose that a prince is a 10 to 12-year-old boy in society. And there are about a thousand people in society. Will he have enmity with the prince?

According to another logic. You can see in the Loshu grid that number 5 is in the center of all nine blocks. That's why the distance of the number 5 is equal to every number in the grid.

According to both logics, number 5 cannot be a non-friend of anyone. In my experience, I have never seen number 5 as a non-friend of anyone.

The rest of the numbers are 7, 8, 9, and 4 and they are neutral for number 5. Number seven is Ketu who is a weak planet, Saturn is his stepbrother but still, Saturn has no problem with Prince Saturn only has a problem with the sun. And number 9, the commander, is also helpful to the little prince. And number 4 the gangster also does not have any problem with the prince.

6. Now we have the number 6, Venus. Like every planet, he is also closer to the king. Thereafter, he needs Prince (the number 5), which is strange, but number 7 is also a friend of 6. According to a story, Ketu was a disciple of Venus. It is a relationship between a master and a disciple. At the last, he is compatible with the number 6 itself.

Only number 3 is his non-friend because Jupiter is the Guru of Gods and Venus is the Guru of Devils. They do not even want to look at each other. They are anti to each other and they are born to kill each other.

The rest of the numbers are neutral for Venus. Number 8, number 9, number 2, number 4.

7. Now let's move forward to 7, the Ketu. Think for a few seconds and guess who would be the best friend of Ketu. Yes! It is Rahu the number 4. Because one is the head and the other is the body. They are a perfect match for each other. After that, it is closer to Venus, the number 6, because Venus is his master. After them, Ketu's need is King Number 1. Thereafter, Jupiter, the number 6 comes. Because Jupiter has the knowledge and Ketu has the wisdom, we have talked about it before. And Prince the number 5 comes at the last.

Same as the prince, Ketu also does not have any non-friends. Because Ketu does not have his head. When he gets into someone's head, he speaks their language. His body is already incomplete, so he does not want anyone as his enemy.

Number 8 Saturn, number 2 the queen, number 9 Mars, and number 7 Ketu himself are neutral for Ketu. Now you may be thinking about why Ketu is neutral with Ketu.

Suppose there are two people and they both do not have heads. They may be best friends. But If they do not have a head, how can they help each other? So it is better to say that 7 vs 7 are neutral instead of being friends.

There would be a chapter I am revealing a little bit now. We will talk about 7,7 driver conductors. If someone has 7 as their driver and 7 also as their conductor. These are the people who were deceived by someone, who was deceived in love. They must have had emotional setbacks and they must have lost their money. 7 versus 7 is called the disappointment number.

8. Let's move forward to our next number, which is number 8, Saturn.

Saturn is the judge, and he does not like to meet anyone. He has no friends and no enemies. Have you ever seen a Supreme Court judge enjoying a party singing, dancing, or attending an inauguration?

SOORAJ ACHAR

The answer would be no. Because they do not want to favor anyone. Because if someone is favoring them, they also have to favor them in court. Which is not okay for society.

So they always try to cut off from society.

That's also the reason number 8 is called the struggling planet. We will talk about it later.

Number 5(Mercury) is his friend because they both are brothers. Thereafter, number 6(Venus) is also closer to him because he(8) also wants luxury and pleasure. After them, number 3 (Jupiter) and number 7 (Ketu) are on his friend's list.

4 and 8 may be his friends and non-friends. We have discussed this already. Number 1 (the sun, the father) and number 2 (the moon, the queen) are his biggest enemies. Because Moon is his stepmother and because of the iron-water relationship, they do not like each other.

Number 9(Mars) is mostly a neutral number for Saturn, but sometimes it can be a friend.

9. Now it's time for our last number 9, Mars. I call number 9 the unpredictable planet.

Driven by their mood. It is not fixed which numbers are his friends, which are his non-friends, and which are neutral. But according to my experience, I have classified them.

Number 1(Sun), number 5 (Mercury), and number 3 (Jupiter) are his friends.

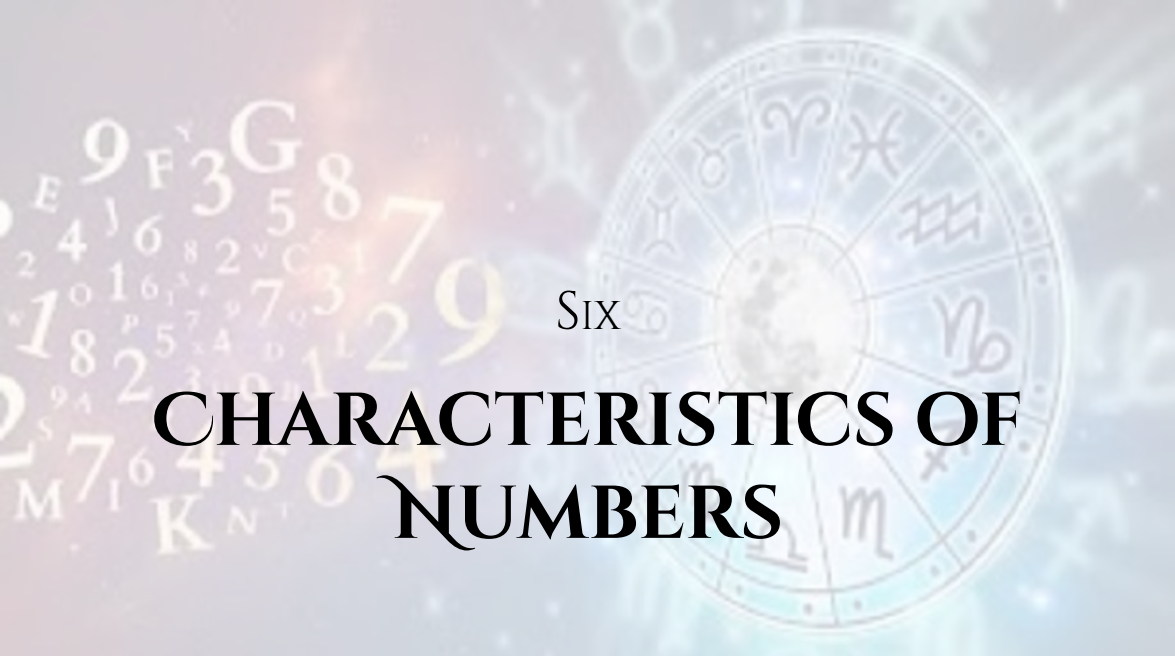

Numbers 4 and 2 are his non-friends. Because Rahu is a gangster and does not want to patch up with Mars.

Numbers 6, 7, and 9 are neutral for Mars. And for the rest of the numbers, we don't know whether they are friends or non-friends. It depends on the situation.

So that's all!

It is my request to you as a mentor. Please read this chapter multiple times to understand it better.

SIX

CHARACTERISTICS OF NUMBERS

“Numerology is a mathematical calculation, to know ourselves, and inherit the actual behavior according to our numbers, It is a study of the numbers in our life, which helps us to understand ourselves and the world as individuals, where we can discover insights about our purpose.”

- Neetu Chhaabria

What do the characteristics of numbers tell us? For example, we have 9 numbers from 1- 9 each number has its quality, each number has a different role in your personality. If a person is born on the 1st or 10th or 19th or 28th of any month their driver number will be 1 and in other words, we can say that they are ruled by the number 1.

The question is do they all have the same characteristics? When we talk about numbers 2 or 3 or any number, there are many shades of these numbers and it is called the characteristics of numbers. You will understand everything as we will move forward.

Now let's begin our topic: **The Characteristics of Numbers.**

SOORAJ ACHAR

First of all, we will understand number 1. Number 1 is associated with the sun. We can get the driver number as 1 from dates: 1, 10, 19, and 28. Are all these numbers containing the same characteristics? Or do they have different qualities?

Imagine there is a sea named 1. And we have four rivers named 1, 10, 19, and 28. Ultimately all 4 rivers will end up in 1 (in the Sea) but their route would be different. Maybe a river is taking less time while another is taking too much time to reach its destination.

I divided these 4 rivers into three categories A, B, and C. The smartest river is 19 and I am putting it in Category A. Rivers one and 10 are in Category B while River 28 is in Category C. Why did I divide them like this? Let me explain.

I kept number 19 in category A because it is coming from the Sun and Mars. In the chapter “Characteristics of Numbers,” we learn that the number 1 is most suitable with the number 9.

Numbers 1, and 10 are sitting isolated so I put them in category B.

You may be thinking that in 28 there are two numbers that may be supporting each other, so why do I put them in category C? You know the answer. Number 2 is the moon- the water and number 8 is Saturn- the iron. 2 and 8 are enemies to each other.

Now you can divide all the numbers from 1 to 9 into such categories yourself.

But what is our objective in dividing them into categories?

First of all, let's talk about characteristics.

Characteristics of Numbers One By One

1. Characteristics of Number-1:

Number 1 is the number of the Sun.

First characteristics – they are the leaders.

They definitely rise to the rank. Even If they start their life in a small position, they end up in a higher position. Politics suits them.

The second characteristic is that they are the pioneers. It means they are ahead of everyone. They are the ones who discover something for the first time.

For example, the company IBM is the pioneer of computers. Motorola is the pioneer of mobile companies.

3rd - they are authoritative. They like to move on with authority.

4th - they are the boss. They do not like to work under anybody. It means they do not feel very comfortable in their jobs.

5th - Ego, they have too much ego.

Overall, we can say that they are the leaders, authoritative, and Pioneers. Basically, they are trendsetters. They are royal. They always want branded things.

You can see all the characteristics of one in the people of 1, 10, 19, and 28. But number 19 is more successful among all. Number 28 has to spend more time and has to struggle more to achieve royalty.

Let's look at some real-life examples. Mukesh Ambani is ruled by number 19. His father Dhirubhai Ambani is ruled by 28. They both are the most successful businessmen in India, but the difference is that Dhirubhai Ambani was poor at starting, and then, after a huge struggle, he became rich. But Mukesh Ambani got everything very easily. I hope you understand the message I want to convey to you now.

2. Characteristics of Number-2:

Number 2 is the moon's number. We can get this number from 2, 11, 20, and 29. 11 is in A, 2 and 20 are in B and 29 is in C. Why 11 is in A? Because 11 is coming from two times 1, which is the sun's number. This is one of the strongest numbers and we call this the master number. 2, 20 are in category B because they are sitting isolated. And number 29 is in category C because it is coming from the moon and Mars. From the table of compatibility, you can check that they are non-friends of each other. 2 is the queen and 9 is the commander and you know why the queen does not like the commander.

Now let's see their characteristics.

You know that the Moon grows for 15 days and decreases for 15 days. Similar to the nature of the moon, these people have a flickering mind. Their mind is not so stable. They leave their house to watch a movie but go shopping.

2nd - These people are beautiful and have very pretty faces.

3rd - they are very supportive and at the same time, they also want to be supported.

They have one more character- a feminine character. They like to behave like ladies. They are comfortable in ladies' company.

Overall, they are gentle, soft, have a flickering mind, are beautiful, and like to give as well as get support. They are very good hosts also.

At this time, I would like to talk about 29 in particular. In my Numerology experience, I have seen that if someone has 29 as their date of birth, there is a question mark on their marriage. Because 2 and 9, the queen and the commander are against each other. It is not compulsory for everyone, it may or may not be, depending on various factors. We will learn in a professional numerology course.

3. Characteristics of Number-3:

Let's move forward to number 3, which is Jupiter's number. Number 3 can be obtained from 3, 12, 21, and 30. 12 is in Category A, 21 is in Category B, and 3 and 30 are in

Category C. In 12 number 1 is King and number 2 is Queen, it is a very good combination. You know the reason behind it from the chapter compatibility of numbers. You may be thinking that 21 is also the number of queens and kings, so why is it in category B? In 12, the king is in the first place and the 21 king is in 2nd place. 21 is weaker than 12 because, in 21, the most powerful number is behind a less powerful number.

3 and 30 are sitting isolated and they do not have any support. That's why they are in category C.

Now let's check for the characteristics. Remember! Jupiter is the Guru of gods.

The first characteristic is knowledge. These people have very good knowledge. These are the people who are very, very hungry for knowledge. If they have to choose between a book and money, they will definitely choose the book.

2nd - they can do very well in the educational sector.

3rd - The imagination and creativity of these people are fantastic.

4th - they are very good at spiritualism. Or they are very religious.

If a female or male is ruled by 3, this is my sincere advice to them that consuming liquor and non-veg is not good for you.

Overall, these people are good at knowledge, education, spiritualism, and religion. Occult also suits these people very much. They are very good at mystic sciences and I suggest they make it their profession.

4. Characteristics of Number-4:

Now we are moving to the number 4, which is Rahu's number.

We can get 4 with dates: 4, 13, 22, and 31.

Number 22 is in Category A number 31 is in B number 4 is in C and number 13 is in Category D. We have a new Category D in this case.

22 is in category A because it is a master number like 11. We will discuss in our coming topics about master numbers. 31 is in category B because 3 - Jupiter and the 1 -sun are best friends. Number 4 is in category C because it is sitting alone. But why is number 13 in category D? There is also Jupiter and the sun, and the sun is in the first place. It should be the best!

It is in category D because 13 is a karmic number. We will discuss this in the next lectures about karmic numbers. 10, 13, 14, 16, and 19 are karmic numbers. The karmic number means that when you did not fulfill the sins and debts of your past life, then you carry them in your present life.

In Europe and many foreign countries, there is no lane number 13, in Delhi, there is no 13 number lift, and no houses are made with the number 13 because of the Karmic debts.

Now, look at the characteristics of number 4. Number four is Rahu's number and Rahu is the gangster, the Robin Hood, but positive.

The first character is they are rebellious. They want to follow their own rules and they do not like to work under anyone.

2nd - discipline, and organization.

3rd - they are very logical. They can't explain without logic and they can't understand without logic. They need logic in everything. If there is logic, if there is science, they will say it is fantastic, it is acceptable, but if there is no science, no logic, they will not accept it.

Law is the best sector for these people.

They are secretive. They never disclose anything.

They are impulsive.

They are argumentative. They get angry at little things.

They also have a negative character that they are abusive.

Overall, they are impulsive, rebellious, secretive, logical, scientific, and abusive.

5. Characteristics of Number-5:

Now let's talk about the number 5 which is the number of Mercury you can get the number 5 by 5, 14, and 23. 14 is in Category A, 23 is in B and 5 is in Category C. In 14 number 1 is sun and number 4 is Rahu. Both are aggressive numbers and are suitable for each other. 23 is in the B category because 2 the moon and the 3 Jupiter are gentle numbers. Five is sitting alone. That's why it is in category B.

From 1 to 9, the number 5 is the only number that gives you balance in your life. It is the only number with no enemies. It is a fantastic number.

Let's see its characteristics.

1st - it is the most balanced number. These people know very well how to balance their life. They know how to balance relationships, how to balance emotions, and how to balance finance.

2nd - They are self-accountable and self-responsible. They do not like too much interference in their life

3rd - they are lazy. They do not want to do physical work. You can notice that these people are fat, you can see them always sitting and eating. They do not believe in exercise. This is not applicable to all because it also depends on your conductor number. But mostly they are lazy.

4th - they are young at heart; they are romantic in nature. They always want to look smart; they care too much about their appearance.

The best line for the number 5 character is that you will hardly see anybody with total failure in his or her life. If your driver number is 5, be thankful to God that God has given you such a fantastic number.

These are the people who have the capacity to bounce back. They are the symbol of success.

Overall, we can say that they are balanced, romantic, self-accountable, self-responsible, obese, and do not like to work too much.

6. Characteristics of Number-6:

Now let's talk about the number 6 which is the number of Venus and you can get this number by dates: 6, 15, 24. I put 15 in Category A+ and 6 in Category B and 24 in Category C.

Why 15 is in A+ because the sun is sitting with Mercury, and a father is sitting with his son. And 6 is sitting alone, so we put this in category B. 24 is in category C because 2 is Moon and 4 is Rahu. One is Queen and the other is a gangster.

Let's see the characteristics of the number 6.

1st - they are romantic people. They like beauty in life. They like to tour and travel. They like to live a luxurious life. They love to do makeup.

A proper word for the number 6 is that they are manipulating.

They have the art of telling lies. It is very difficult to catch their lies. They know how to tell lies, where to tell lies, and how to protect themselves.

2nd - they are sense verse.

3rd - they are diplomatic.

Overall, we can say that number 6 is the number of romance, luxury glamor, tour travel, and beauty. They are manipulating, diplomatic, and know how to tell lies.

If there is a lady whose ruling number is 6 and coming from 24. There is definitely a question mark on her marriage. You can see in your family, friends, and neighborhood that if a lady is ruled by the number 6 from 24, 7 ladies out of 10 have disturbed marriage life. They may be facing problems of not getting married or divorced.

Because in 24 the Queen is disturbed by the gangster. The gangster has no problem with the queen, but the Queen is uncomfortable with the gangster.

7. Characteristics of Number-7:

Now let's talk about the number 7 which is Ketu's number. You can get this number on 7, 16, and 25. 16 is in category A, 25 is in category B and 7 is in category C. 16 is in category A because 1 is the number of the Sun and 6 is the number of Venus. The Sun has leadership and Venus has luxury. It is a great combination. 25 is made up of a mother and son. That's also a good combination. 7 is sitting alone. That's why it is in category C.

Now let's look at characteristics.

1st - this is the best number for the occult. If you are ruled by the number 7 and undisputedly, you are a perfect person to adopt the occult as a profession. Seven is the number of wisdom. These people are very intelligent. These people know how to solve an integrated problem.

Because it is a Ketu's number, it also questions marks the marriage life. These people are good at spiritualism and also at religion. Because they have wisdom, they are also good at the education sector.

But 7 is a number of disappointments. This number gives disappointment in marriage, health, wealth, and emotions. These people have to face many setbacks in their lives.

8. Characteristics of Number-8:

Now it's time for the number 8, which is Saturn's number. We can get this number in 8, 17, and 26. 17 is in category A, 8 is in category B and 26 is in category C. 17 is in category A because there is Ketu with the sun. They are friends of each other. 8 is sitting alone. That's why it is in category B. 26 is in pair, but still, it is in category C because the Queen does not like Venus.

Remember, number 8 is a number of struggles. We have talked about it in the compatibility of numbers chapter.

When we talk about the order of struggle, people with the number 17 have to do less struggle. Then people of number 8 have to do a little more struggle and people with number 26 have to do much more struggle.

SOORAJ ACHAR

Now let's talk about the characteristics of the number 8.

The struggle is the first characteristic of the number 8. This type of person has to struggle much more than others.

Everything in their life gets delayed. It should be done today, but it will happen tomorrow. Their success only depends on their character. These types of people are laborious. They are hard workers.

These types of people believe in hard work. They are also egoistic. They think that they are the best. It is very difficult to teach them.

The Law sector is the best for number 8. If you are ruled by the number 8 you can go into the law sector blindfolded.

These types of people are like coconut, hard on the outside and soft on the inside. They believe only in themselves and do not believe in anyone very easily.

If there is a lady who is ruled by the number 8 which is coming from 26. She also has a question mark on her marriage. There are high chances of multiple marriages. And she may have problems like fertility and divorce. Because in 26 there is a queen and Venus, but only Queen "the lady" is uncomfortable.

9. Characteristics of Number-9:

Now it's time for our last number 9, which is the number of Mars. We can get 9 from 9, 18, and 27. Here, 9 is in Category A, 27 is in Category B and I put 18 in Category D, not even in C.

I told you that numbers in pairs are good, but still; I put 27 in B., why? Because number 2 is queen and number 7 is Ketu, it is not a good match. Why 18 is in the D category instead of the C category? Because 1 is the sun and 8 is Saturn, they both are anti-planets.

When we look at the traits of number 9, their first trade is that they are driven by their mood. They can die, but they don't want to lose. They are egoistic. You cannot predict when they will be happy and when they will be sad.

They are the best soldiers. They are suitable for the army and police services. Overall, I would like to say that the number 9 indicates unpredictable behavior.

If there is a male who is driven by 9, which is coming from 18. Just ask him a question: what does his father do? Or what was the profession of his father? Their answer will be very, very negative. They may say that their father passed away when they were a kid. If there is a father whose kid has the number 9 coming from 18, the father has to struggle much more because his son is heavy on him. And he is at risk of unnatural death.

But don't worry, we have solutions to this problem. Send your child to a hostel, don't do business together, and don't live under the same roof. The relationship of this person with his father would be bitter.

This is all about the characteristics of numbers from 1 to 9.

I hope you understood it very well and enjoyed it so much.

Now pick some dates of birth from your surroundings and do a self-analysis.

Remember, the more you will study, the more you will learn.

Feng Shui focuses on the placement of objects, furniture, and structures in living spaces to optimize the flow of energy, or "Qi." It also considers the orientation of the building, the placement of doors and windows, and the use of colors, shapes, & materials to create balance & harmony.
