How to Use & Edit Your Templates

STEP 1

Access the Templates

Click the button above to open the templates in Canva. You'll be redirected to the Canva website where you can start customizing.

STEP 2

Make a Copy

Once you open the link, click on "Use Template" to create your own editable copy. This ensures that the original template stays intact.

STEP 3

Customize to Fit Your Brand

- Click on any text box to edit the texts.
- Select the elements to adjust colors & fonts to match your branding.
- Upload your own images and logos.

P.S: Download the Canva app to easily access the templates on your mobile device.

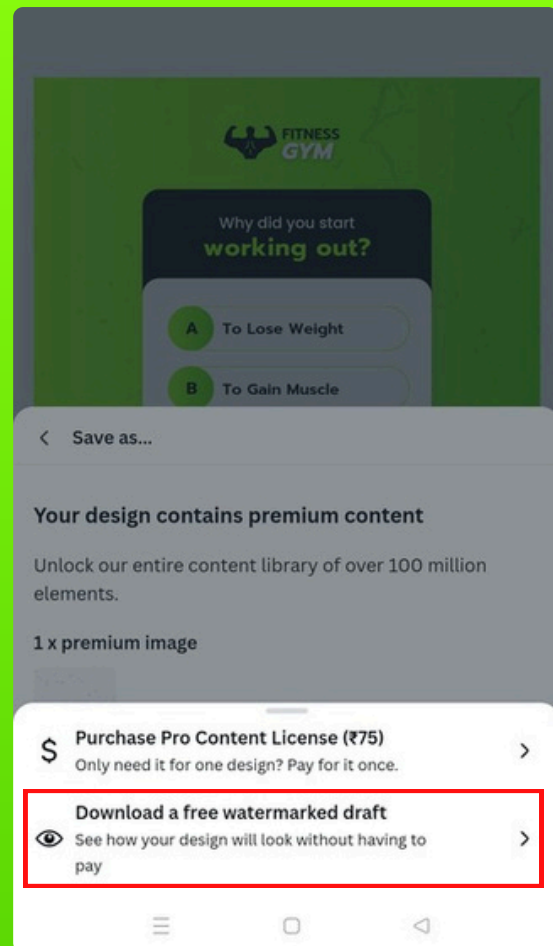

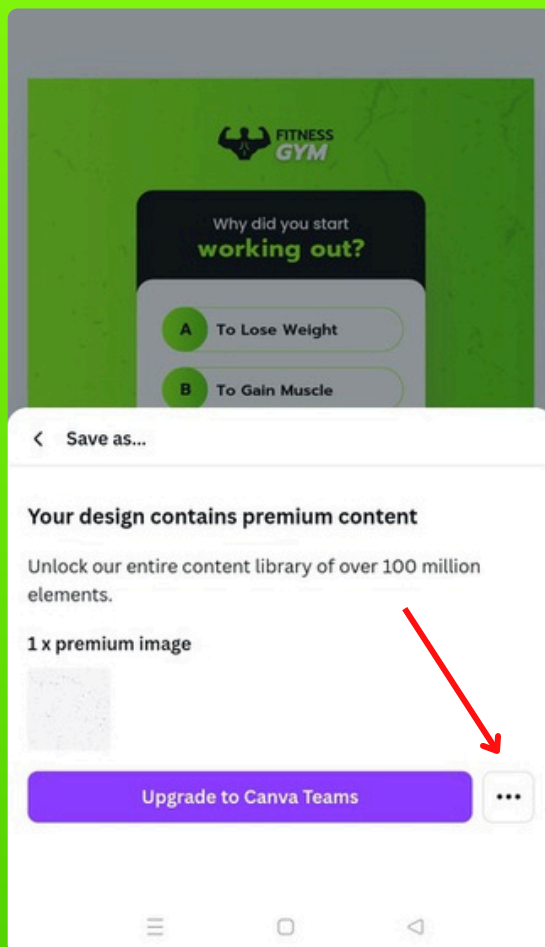

STEP 4

Save & Download

When you're happy with the design, click on the "Download" button (top right corner) to export the design as a PNG, JPG, or PDF, depending on your needs.

IMPORTANT

If you see this option at the time of download, then click on the three dots in corner.

And click on the "Download a free watermarked draft" to download your design.
