Getting Started with Trading Platforms

FOREX & CRYPTO DECODED

Choosing the Right Broker and Platform

Your trading platform is your most important tool. It's where you'll analyze markets, execute trades, and manage your account. Choosing the right broker and platform is critical for your success.

Key Considerations When Choosing a Broker:

- 1.Regulation and Trustworthiness: Ensure the broker is regulated by a reputable financial authority (e.g., FCA, SEC, or SEBI).
- 2.Market Access: Confirm that the broker provides access to both Forex pairs and cryptocurrencies if you plan to trade both.
- 3.Fees and Costs: Compare spreads, commissions, and deposit/withdrawal fees. Look for transparency in pricing.
- 4.Leverage Options: Depending on your risk appetite, choose a broker offering appropriate leverage.
- 5.Customer Support: A responsive support team can save you during technical or trading issues.

Popular Brokers and Platforms:

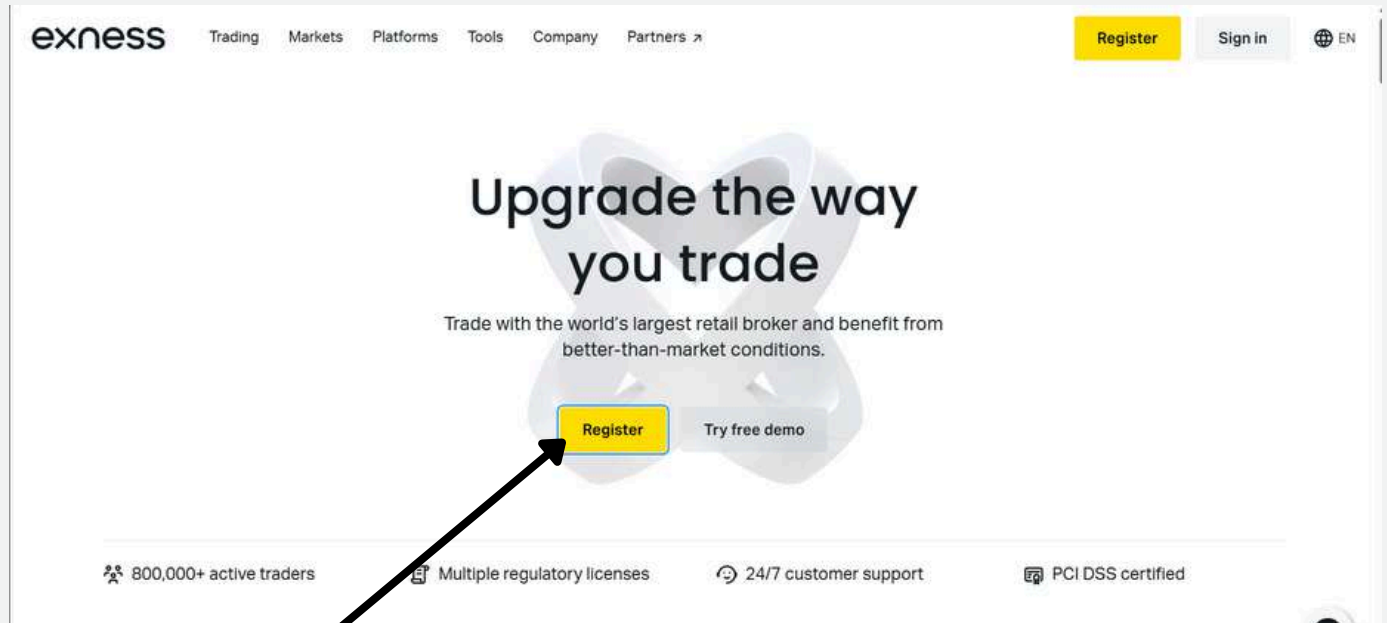

- MetaTrader 4 (MT4): Industry standard for Forex trading, ideal for beginners and pros alike.
- MetaTrader 5 (MT5): Enhanced features for multi-asset trading, including crypto.
- Exness : Trades are placed on MT5, supports forex pairs, foreign stocks, crypto's.
- Binance: Leading crypto exchange with advanced trading tools.
- Coinbase: Beginner-friendly platform for crypto trading.

Welcome To No.1 Trusted Broker

Exness is an ideal broker for both novice and seasoned traders, offering a wide range of trading instruments and advanced features. Its user-friendly platform and competitive spreads make trading hassle-free, while the absence of commission fees further enhances the value for traders.

Install your Broker here :

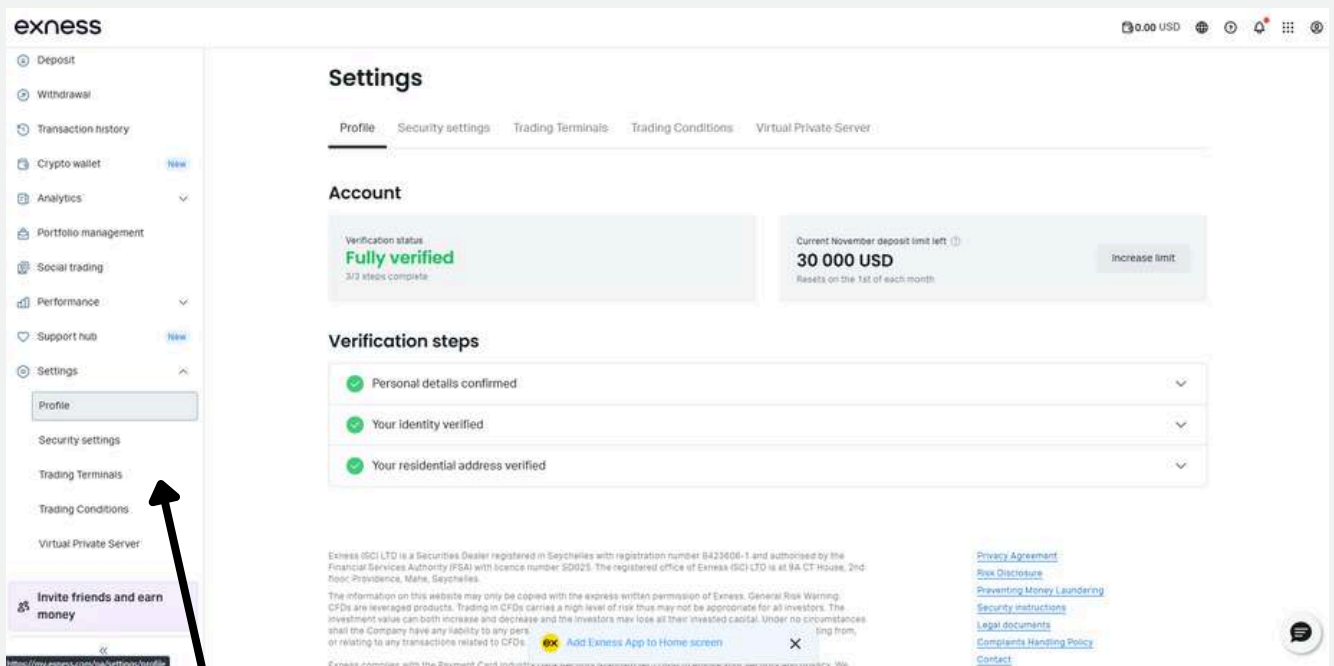

<https://one.exnesstrack.org/a/r2yaezbkls>

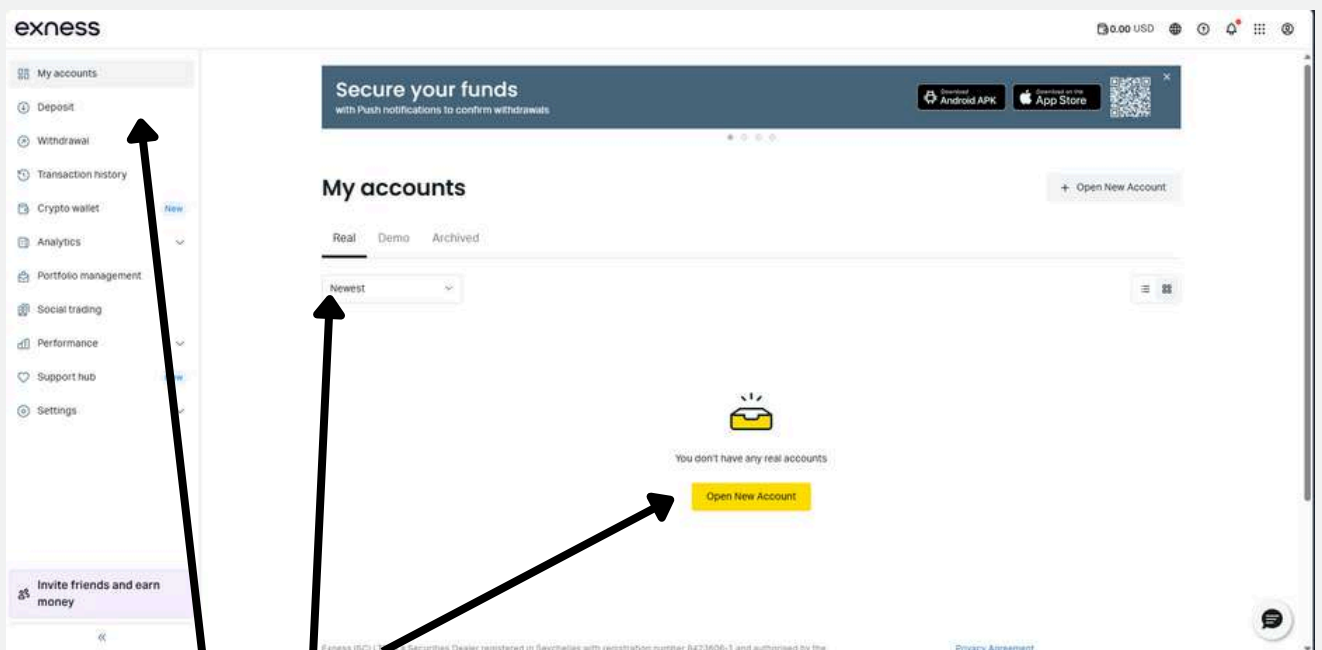

Register here with your email

The image shows the 'Welcome to Exness' registration form. At the top, there are two tabs: 'Sign in' and 'Create an account'. The 'Create an account' tab is selected. Below the tabs, there are several input fields: 'Country / Region of residence' (a dropdown menu), 'Your email address' (a text field), and 'Password' (a text field with a strength indicator). Below the password field, there are four bullet points: 'Between 8-15 characters', 'At least one upper and one lower case letter', 'At least one number', and 'At least one special character'. Below these, there is a 'Partner code (optional)' dropdown menu. At the bottom, there is a checkbox with the text 'I declare and confirm that I am not a citizen or resident of the US for tax purposes.' and a yellow 'Continue' button. A black arrow points from the text 'Use your email and create your password or you can directly Sign in with Google' to the 'Continue' button.

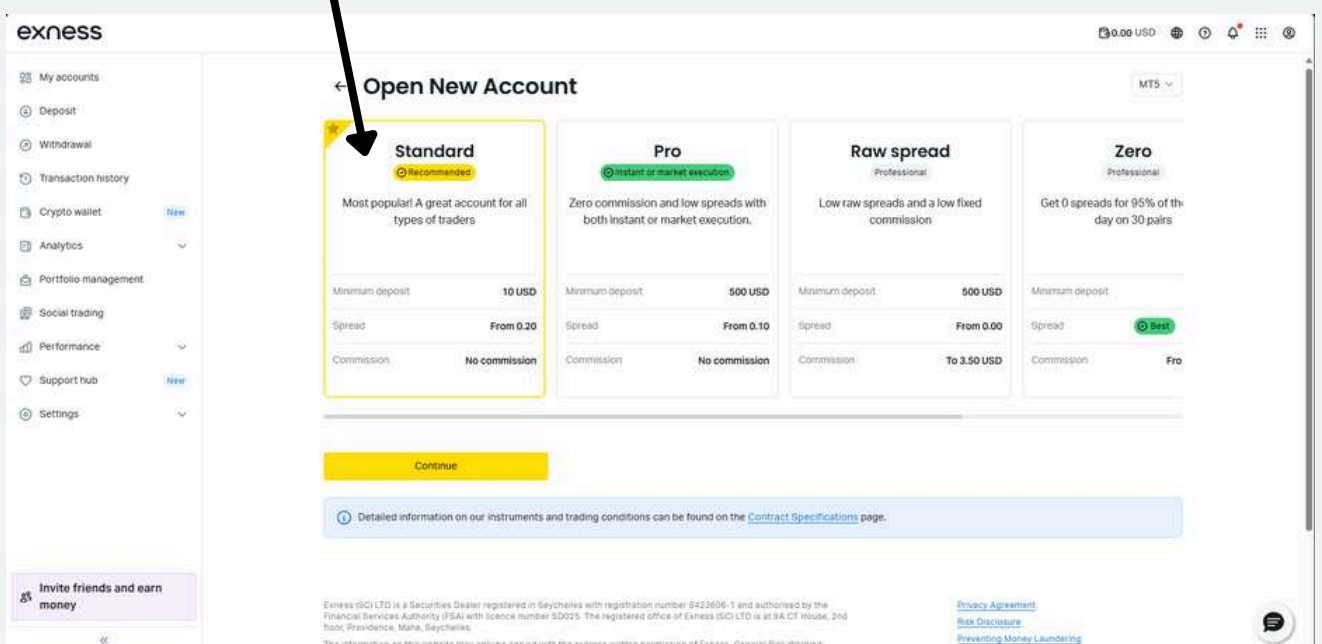

Use your email and create your password or you can directly Sign in with Google

Get your account verified in settings (profile section), provide your : identity and residential address verified document eg. Adhar card

Open new Real account from my accounts section, Choose Standard (best for beginners)
