How to use Social Media Content Plan

With a proven long term plan success is guaranteed. The Social Media Content Plan gives you 730 days of post prompts. You'll never have to worry about what to post again!
When used correctly this plan will save you SO MUCH TIME each week.

Take some time each week (We prefer to do it on Friday because Mondays are the worst!) to go through the next week's posts. Follow the recommended topics that day, type a couple of sentences (You usually don't need more than 4 sentences) and then schedule your post using your favorite scheduling software.

Have a Question?

Connect with our support team at: <https://digitalbundl.com/>

Recommended Workflow

1. Block out an hour each week for social media creation and scheduling (I prefer Friday afternoons)
2. Open a word processing program (I prefer Google Docs) and type up posts using the prompts in the Social Media Content Plan as a guide
3. Create any images needed (holiday images, quote photo overlays, question images, or other photos/videos) and save them to your computer
4. Open up your post scheduling software** and schedule all the posts for the next 7 days.

Tips and Tricks

- If you are a local business, look for local holidays or events to post about
- If you have front desk staff, train them on how to use the Social Media Content Plan. You can review posts before publishing
- After finding a process that works for you, consider hiring a virtual assistant to write posts for your business
- As you browse the internet, keep a list of interesting articles and other content you can post about

Customizable image designs done for you!

If you didn't already purchase the social media image pack, you can grab it here. Create professional grade quote and question images in seconds! Grab that bad boy at the link below:
